Today, the children need to know how to think, to solve the problems, to innovate and to collaborate. There is no longer a single pathway to that end, but whatever paths our students choose must be stepped with efforts, dedication, relevance and relationship. CHAIRMAN
JAGRAN PUBLIC SCHOOL,
CAMPIERGANJ, GORAKHPUR

JAGRAN PUBLIC SCHOOL, CAMPIERGANJ

a franchisee of

JAGRAN EDUCATION FOUNDATION

Durga Public Memorial Trust was established in the year 2017 in order to perpetuate the memory of Late Shri Durga Prasad Matanhelia. The trust is contributing significantly in the various areas of society. Since the state of education in and around Campierganj had not been up to the mark, Shri Durga Prasad Matanhelia had a dream of establishing a school which can add value in the lives of children and can enable them to empower the nation. Translating his dream into reality, the trust is proud to become the franchisee of Jagran Education Foundation which has been established under the aegis of Shri Puranchandra Smarak Trust founded in the sacred memory of Late Shri Puranchandra Gupta, the founder of Dainik Jagran.

AIMS AND OBJECTIVES

By blending our ancient cultural heritage with internationally accepted pedagogies, Jagran Public School encourages participating on, critical thinking, team building and sharpens the motor skills by :

- Broadening the mental horizons and creating deeper awareness.
- By training and preparing the mind and body of students to be emotionally strong, mentally stable, spiritually powerful and physically healthy to lead a highly contented life and to achieve greater successes in life.
- Channelizing youthful energy and directing it towards environmental and socially relevant issues.

SCHOOL BUILDING

On a four acre plot at Campierganj, Gorakhpur, the school will have separate wings for Pre Primary, Primary, Junior and Senior classes. Well equipped with suitably spacious and ventilated class rooms, audio visual centre, library, learning resource centres, science and computer labs make the school peerless.

CAMPUS

The school is located in the lap of nature, far away from the noise and pollution of the city, surrounded by green fields. The campus is thoughtfully planned and incorporates a futuristic design. The proposed gardens and playfields provide a pleasing sight.

SMART CLASSES

Initially, the school has two Smart classes which will be used in rotation by all the subject teachers in all classes. We use technology to add value to the classes, not to replace them.

LIBRARY

We strongly believe that reading habit is one of the most fundamental habits for great success. The school has a spacious library with plenty of reading material suitable for all age groups and interests.

SPORTS & HEALTH EDUCATION

The school aims at providing all round development which means that the child is expected to do well in studies but not at the expense of his health. Students are made to take part in organized games as per their time table. We have special coaches for various games.

INFIRMARY

The school has an infirmary with a Nurse.

PARENTS TEACHER MEET

Parents Teacher Meetings are conducted followed with each Test / Exam. Sometimes, the marks that the child is scoring are not enough to understand the direction in which the child's life is moving. It is for this reason that Parents are advised to stay in touch with teachers. The joint, regular, consistent and wisely planned efforts of both Teachers and Parents support students mentally and emotionally for great success in life.

WORKSHOPS

The school organizes workshops for students as well as parents. Parents need to know What is effective Parenting. They need to be psychologically trained to deal with children. In many cases it is found that psychologically skilled parents are more successful to develop good mental physical health in their children. In addition to this, they help their children to find purpose in life to make it meaningful. On the other hand students need to stay updated with the socio-economic changes in the country. This can help students to think and prepare in present (not in future) and to choose suitable career option available in the country.

MEDITATION & VALUE EDUCATION

We firmly believe that only a sustainable mind can produce a sustainable health, sustainable career, sustainable relationships and sustainable home. Regular mindfulness practice enables our students to focus on their academic growth.

WORK EXPERIENCE

In today's era of start ups & entrepreneurship, it becomes important to focus on Work Experience which can skill the students and can develop Entrepreneurial Attitude among them.

In every Academic Year, each student is allotted an activity for hands on experience. Generally, one activity is given to each class so that the children can learn from each other as well as from their trainers. The following activities are held in the school:
